Evaluation Letter for the Implementation of the Erasmus+ Project "ECAPT"

Identification: “Empowerment through Creative Arts and Participation for European Teens (ECAPT)” Erasmus+ Programme, Key Action 1 n. 2025-1-AT01-KA152-YOU-000297832

Associação Nó Górdio was one of the partner organisations in the **ECAPT** project.

This project was under the Key Action: Learning Mobility of Individuals and under the Action Type: Mobility of young people (Youth Exchange – KA152-YOU).

On behalf of Associação Nó Górdio (Portugal), we are writing this formal evaluation letter to express our appreciation and positive assessment of our collaboration within the Erasmus+ project “Empowerment through Creative Arts and Participation for European Teens” (ECAPT).

As an official partner organization, we were actively involved in the preparatory, implementation and follow-up stages of the project, particularly in the dissemination of results at local and national level in Portugal, as well as in the mentoring and support of our participant group throughout the main mobility: the Youth Exchange held in Vienna, Austria, from 10 to 18 of February 2026, which gathered 25 youngsters (ages 16–22) and 5 leaders from five partner organisations.

Implementation and Collaboration

From the beginning, the cooperation with the applicant organization NGO Tred Club (Austria), the coordinating organisation ACPELIA (Cyprus) and the other partner organisations was exemplary. The coordination committee guaranteed transparency and regular communication, while all partners, including Nó Górdio, contributed to the development of the educational flow, the creative workshops based on art, dance and forum-theatre, and the dissemination strategy.

Our responsibilities as a partner included:

- Selecting and preparing 5 participants (ages 16–22) and 1 group leader from Portugal.
- Supporting them before, during, and after the Youth Exchange with mentoring and reflection activities, including the preparation activities (logo contest, national posters, research on discrimination and the Portuguese cultural night).
- Contributing to the educational content, especially regarding non-formal learning methodologies and the use of art, dance and theatre against discrimination, intolerance and violence.
- Leading dissemination actions in Portugal through schools, municipalities, NGOs, and our communication channels.

Monitoring, Evaluation & Impact

We observed that the applicant and hosting partners ensured continuous monitoring and evaluation processes, and we were able to actively contribute to reflection circles, feedback mechanisms, and the Youthpass validation of learning outcomes.

The impact for our participants was highly positive: they improved their competences in creativity, intercultural dialogue, and discrimination prevention, strengthened their European identity and active citizenship, while also reinforcing their employability and civic engagement. At the organizational level, Nó Górdio gained new partnerships and increased capacity for future European cooperation.

Confirmation

We confirm that NGO Tredu Club and the consortium:

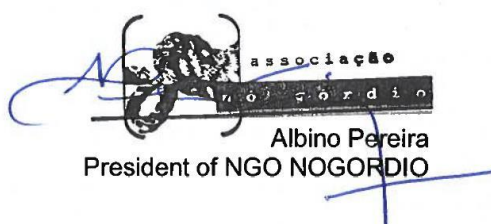

- Fully respected and implemented the Erasmus+ Youth Quality Standards.
- Promoted meaningful youth participation, non-formal learning, inclusion and creative practices.
- Ensured excellent communication and cooperation with all partners.
- Delivered a project of high educational and social value with long-lasting impact.

We are proud to have been part of ECAPT and look forward to continuing our collaboration in future initiatives, building on the strong foundations created by this project.

With appreciation,

For Associação Nó Górdio,

Valongo, 12th of June of 2026
